**IV. Conclusion and Future Plan**

**V. Project Developing tool and prototype**

# I. Introduction

We advertise product promotions for companies and seller to customers through our website. Seller easy to promotion their product and buyer easy to find standard product with good price and quality.

## II. Problem and Solution

### a. Problem

- People hard to find promotion product
- Spend a lot of time to find promotion product
- Some time get not standard product
- For seller hard to find the place where they can promote their product

## II. Problem and Solution

### b. Solution

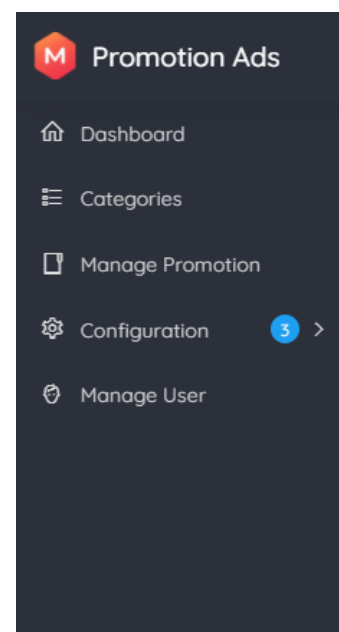

Building a dynamic web application for all information management about promotion products from different company to the world.

### III. Features

#### ➤ Backend

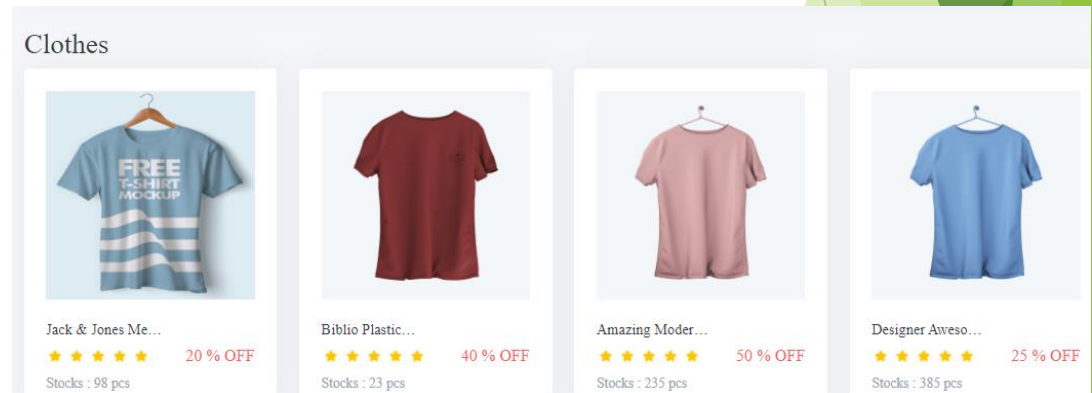

Backend store data of company and information about ads

On our right size is Left size bar which control over

#### ➤ Frontend

Frontend to view all promotion post by selecting from the backend

# V. Conclusion and Future Plan

## a. Future Plan

So, our website is to make sure companies and sellers can advertise their products through our website with the high rate of viewers or consumers.

In the next future, we will develop more in order to make it broad market, broad view, high rate of purchasing

### About

#### OUR PEOPLE

---

The PromotionAds is created by [Hing kosal Kong Sreya](#) and [Chhorn Soktheng](#) . We are web developer students at University of Puthisastra. The PromotinAds is a topic of project that we chose to design. The PromotionAds is a website that shows all promotion product around town. Users can view to the whole pages to see the promotion product that they want to buy. Once they see the products they like to purchase, they can click on the view more button to see all information related to the product. Also, they will be able to contact the product owners to purchase.

### Register Form

Register Form: Register new account to login.

 Promotion Ads

The image shows a UI prototype for a registration form. At the top, there is a red logo consisting of the letters 'A' and 'D' in a stylized, overlapping manner. Below the logo, the text 'Please Sign Up' is centered. The form contains several input fields: 'First Name' and 'Last Name' are side-by-side; 'UserName' is a single line; 'Email Address' is a single line; 'Password' and 'Confirm Password' are side-by-side, each with a small eye icon for toggling visibility. At the bottom, there are two buttons: a blue 'Register' button and a red 'Login' button.

Please Sign Up

Register

# VI. Project Developing tool and prototype

## b. Prototype (Frontend)

### Login Form

Login Form: You need to have Email and password by register to login to backend then you can post your promotion ads.

The image shows a login form prototype centered on a light blue background. At the top of the form is a red logo consisting of the letters 'A' and 'D' in a stylized, overlapping font. Below the logo is a horizontal line with the text 'Please Sign IN' in the center. Underneath this line are two input fields: the first is labeled 'Email Address' and the second is labeled 'Password'. At the bottom of the form are two buttons: a red button labeled 'Login' and a blue button labeled 'Register'.
